

THE METAL INDUSTRY

WITH WHICH ARE INCORPORATED
THE ALUMINUM WORLD: COPPER AND BRASS: THE BRASS FOUNDER AND FINISHER:
ELECTRO-PLATERS REVIEW.

Index of Volume 18 JANUARY—DECEMBER, 1920

THE METAL INDUSTRY PUBLISHING COMPANY, 99 John Street, New York

ARTICLES MARKED (*) ARE ILLUSTRATED

ARTICLES

A

Abrasive Paper and Cloth.....	268
Acidity of a Nickel Solution, Alkalinity or.....	309
Acid in Pickling Solutions, Indicators Used for Determining Free.....	78
Addition Agents, Lead Plating from Sodium Hydroxide Lead Baths by the Use of.....	407
Addition Agents, Tin Plating from Alkaline Tin Baths by the Use of.....	558
Air Pressure in Tumbling Barrels, Japanning with.....	174
*Airship Construction, Aluminum in.....	262
*Ajax-Northrup Electric Furnace, The.....	213
Alkaline Tin Baths by the Use of Addition Agents, Tin Plating From.....	558
Alkalinity or Acidity of a Nickel Solution.....	309
Alloy, A New Nickel.....	161
*Alloying, A Few, Problems.....	7
*Alloys, Hardness of Certain Aluminum.....	403, 514
Alloys, Nomenclature and Standardization of Metals and.....	553
Alloys, The Production of Copper Calcium.....	277
Alloys, The Trade Origin of Two Valuable.....	206
*Aluminum Alloys, Hardness of.....	403, 514
*Aluminum Bronze, The Still Process for Casting.....	118
*Aluminum Casting.....	449
*Aluminum Foundry Practice, British.....	163, 221
Aluminum—Foundry Practice in the United States, Casting Losses in.....	318
*Aluminum in Airship Construction.....	262
Aluminum in a Vacuum, A New Method of Casting Brass and.....	175
*Aluminum Industry in 1919, The Outlook for 1920.....	8
Aluminum Match Plates.....	402
Aluminum, Nickel Plating.....	226
Aluminum Polishing.....	317
Aluminum Welding.....	364
"Aluminum"? What Is.....	224
*Aluminum Works in Shakespeare's Birthplace, A New.....	83
American Electroplater's Society and the Manufacturers.....	306
*American Electroplaters' Society (Convention).....	303
*American Electro-Platers' Society Convention.....	255
American Electroplaters' Society, Join the.....	261
Americanism.....	468
Analysis of Plating Solutions.....	412, 469
Automobile Parts, The Protection of.....	263

B

Babbitt, Nickel on.....	510
*Baking in Electrically Heated Ovens, Core Blades, Bitching Steel.....	551
*Blanks, Spoon and Fork.....	316

Bluing Small Articles.....	354
*Booth Rotating Electric Furnace.....	456
Brass and Aluminum in a Vacuum, A New Method of Casting.....	175
Brass and Bronze Castings.....	274
*Brass, Casting of Nickel, The.....	161
*Brass Castings of Rectangular Outline, Development of Cracks in.....	76
*Brass Faucet or Compression Bibb Cock, The Manufacture of a.....	159
Brass Foundry Mismanagement.....	408
Brass Foundry Practice at Messrs. Vickers, Ltd., Barrow-in-Furness (England), Notes on.....	550
Brass—Foundry Refuse, Reclamation of Metal.....	432
Brass from Cyanide Solutions, The Electro-Deposition of.....	463
Brass Foundry Flux, Investigation of.....	498
*Brass Goods and Fittings, Marine.....	351
*Brass Goods, Gauges and Standards for Manufacturing.....	77
*Brass Industry, Early Days of.....	230, 259
*Brass Inserts, Lead Castings with.....	407
Brass Melting, Fuels for.....	400
Brass, Satin Finish on.....	460
*Brass Sheet & Coils, The Manufacture of.....	113
Brass, Substituting Bronze and.....	315
Brass, Taps for.....	10
*Brass with Fuel Oil, Melting.....	400, 507
*Brasing and Welding Metals, The Oxygen Acetylene Process of.....	11
Brightener for Copper.....	466
Bright Silver.....	468
*Briquetting of Metal Scrap.....	400
*British Aluminum Foundry Practice.....	163, 221
British Institute of Metals.....	448
Brittleness of Copper, A Peculiar Type of Intercrystalline.....	69-70
Brittleness of Lead, Intercrystalline.....	60
Bronze and Brass, Substituting.....	315
*Bronze Bank Doors.....	271
Bronze Castings, Brass and.....	274
Bronze Plating.....	170
Bronze Propellers, Moulding.....	10
*Bronze, The Still Process for Casting Aluminum.....	118
Bushings from Standard Pipe, Making Pipe.....	502
*Business, The Metal—The Production of Copper.....	1

C

*Cadmium, The Deposition of Silver and.....	13
Calcium Alloys, The Production of Copper.....	277
Calculations, A Few Simple Electroplating.....	365
Calculations, Electroplating (Correction).....	402
Canvases with Emery, Covering.....	162
*Casting, Aluminum.....	449
*Casting Aluminum Bronze, The Still Process.....	118
Casting Brass and Aluminum in a Vacuum, A New Method of.....	175

*Casting Gears.....	407
Casting Losses in Aluminum—Foundry Practice in the United States.....	318
*Casting of Nickel Brass, The.....	161
Casting Shop Costs.....	549
Castings, Brass and Bronze.....	274
*Castings, Defective.....	403
Castings from Cheap Patterns, Expensive.....	455
Castings, The Importance of Inspecting.....	120
*Castings of Rectangular Outline, Development of Cracks in Brass.....	76
*Castings with Brass Inserts, Lead.....	407
Casualties, Pattern Shop.....	511
Cathode, Faraday's Law at the.....	460
Cheap Patterns, Expensive Castings from.....	455
Checker, The Woes of a Pattern.....	552
Chemical Problems, Some Plating and.....	166
Chemical Properties of Copper, Relationship of Physical and.....	71-72
*Chemistry, The Elements of Electro.....	310
Chloride, Zinc.....	366
*City, Columbus the Convention.....	393
Clay for Crucibles.....	212
Cleaning as an Essential Manufacturing Operation.....	415
Cleaning Metals for Electro-Plating.....	518
Cloth, Abrasive Paper, and.....	208
Coatings for Metal Patterns.....	162
*Coils, The Manufacture of Brass Sheet and.....	113
*Coin, Thirty-one Pound Copper.....	313
*Cold Rolling, A Note on Stresses Caused by Color Work, Two.....	353
*Columbus the Convention City.....	393
Compensation Insurance.....	416
*Compression Bibb Cock, The Manufacture of a Brass Faucet or.....	159
*Construction, Aluminum in Airship.....	262
*Convention, American Electro-Platers' Society.....	255
* (Convention) American Electroplaters' Society.....	303
*Convention City, Columbus the.....	393
Convention, Papers Read at the Foundrymen's.....	497
*Convention, The Metal Trades.....	443
*Convention, What Past Presidents Thought of the.....	307
Copper, A Peculiar Type of Intercrystalline Brittleness of.....	69-70
Copper, Brightener for.....	466
Copper Calcium Alloys, The Production of.....	277
*Copper Coin, Thirty-one Pound.....	313
*Copper, New Process for Making Fifteen Per Cent Phosphor.....	314
Copper, The Distribution of.....	217
*Copper, The Production of, The Metal Business.....	1
Copper, Relationship of Physical and Chemical Properties of.....	71-72
*Copper Tubes for Pneumatic Tube System.....	250
*Core Baking in Electrically Heated Ovens.....	450
Core Oven, A Novel.....	503
*Cores Made of Plaster Paris, Forms for.....	352
Costs, Casting Shop.....	549
Costs, Plating.....	220
Councils, The Operation of the Whitley.....	367

*Cracks in Brass Castings of Rectangular Outline, Development of.....	76
*Crucibles, Clay for.....	212
*Cure for Cyanide Sores or Nickel Itch.....	132
*Cutlery Manufacturing Practice, German.....	172
*Cyanide Solutions, The Electro-Deposition of Brass from.....	403
*Cyanide Sores or Nickel Itch, Cure for.....	132

D

*Days of the Brass Industry, Early.....	230, 359
*Decorative Motifs, The Design Value.....	176
*De-Leading Pump, A.....	177
*Deposition of Silver and Cadmium, The.....	13
*Design Value of Decorative Motifs, The.....	176
Determining Free Acid in Pickling Solutions, Indicators used for.....	78
*Detroit Electric Furnace, Melting in a.....	211
*Development of Cracks in Brass Castings of Rectangular Outline.....	76
Die Castings.....	410
Die-Castings, Nickel Plating on.....	229
*Discussion at the Meeting of Institute of Metals Division, February 17, 1920.....	70
Discussion at the Meeting of Institute of Metals Division, February 17, 1920.....	72
Distribution of Copper, The.....	217
*Doors, Bronze Bank.....	271

E

*Early Days of the Brass Industry.....	230, 359
Economy in the Melting Room.....	115
*Electrically Heated Japanning Ovens.....	128
*Electrically Heated Ovens, Core Baking in.....	450
*Electric Furnace, Booth Rotating.....	456
*Electric Furnace, Melting in a Detroit.....	211
Electric Furnace, Melting in a Rennerfelt.....	406
Electric Furnace Progress.....	65
*Electric Furnace Progress.....	116
*Electric Furnace, The Ajax-Northrup.....	213
*Electric Melting in an Oil Furnace.....	207
*Electro-Chemistry, The Elements of.....	130, 310, 363
Electro-Deposition of Brass from Cyanide Solutions, The.....	463
Electroplating Calculations (Correction).....	402
Electroplating Calculations, A Few Simple.....	305
*Electroplaters' Society, American (Convention).....	303
Electroplaters' Society and the Manufacturers, American.....	306
*Electro-Platers' Society Convention, American.....	255
Electroplaters' Society, Join the American.....	201
Electro-Plating, Cleaning Metals for.....	518
Electroplating, Experimental.....	539
Electroplating in South America.....	81
Electro-Plating Industry for 1919, Review of the.....	34
*Elements of Electro-Chemistry, The.....	130, 310, 363
Emery, Covering Canvas with.....	162
*English Galvanizing Practice.....	73
Etching Steel Blades.....	531
*Experimental Electroplating.....	539

F

*Factory Floor Plan, Plating and Polishing.....	267
Faraday's Law at the Cathode.....	469
*Faucet or Compression Bibb Cock, The Manufacture of a Brass.....	159
*Fifty-eight Years of Service.....	390
Finish, Mottled or Spot.....	30
Finish on Brass, Satin.....	469
Finishing Lighting Fixtures.....	513
*First Machine Gun, The.....	360
*Fittings, Marine Brass Goods and.....	351
Fixtures, Finishing Lighting.....	513
*Floor Plan, Plating and Polishing Factory.....	267
Flux, Investigation of Brass Foundry.....	498
Foreman Plater, The.....	178
*Fork Blanks, Spoon and.....	272, 316
*Fork, The Story of the Knife and.....	21, 79
Forming Zinc.....	216
*Forms for Cores Made of Plaster Paris.....	352
Foundry Flux, Investigation of Brass.....	498
Foundry Mismanagement, Brass.....	406
Foundry Practice at Messrs. Vickers, Ltd., Barrow-in-Furness (England), Notes on Brass.....	394, 559
*Foundry Practice, British Aluminum.....	163, 221
Foundry Practice in the United States, Casting Losses in Aluminum.....	318
*Foundry Problems, Typical.....	9
Foundry Refuse, Reclamation of Metal from Brass.....	452
Foundrymen's Convention, Papers Read at the.....	497
Free Acid in Pickling Solutions, Indicators used for Determining.....	78
*Fuel Oil, Melting Brass with.....	400, 507
Fuels for Brass Melting.....	409
*Furnace, Booth Rotating Electric.....	456
*Furnace, Electric Melting in an Oil.....	207
Furnaces, Melting.....	319
*Furnace, Melting in a Detroit Electric.....	211
Furnace, Melting in a Rennerfelt Electric.....	406
Furnace Progress, Electric.....	65
*Furnace Progress, Electric.....	116
*Furnace, The Ajax-Northrup Electric.....	213

G

*Galvanizing Practice, English.....	73

Aluminum, Solder for, 1,344,596, Julian Segura, New York, N. Y.	481
Annealing Furnace, 1,329,873, Ludwig Wolffgram, Erie, Pa.	236
Aluminum Oxide, Apparatus for Producing, 1,314,709, Ralph B. Sherwin, E. St. Louis, Ill.	38
Aluminum Oxide, Process for Producing, 1,314,710, Ralph B. Sherwin, E. St. Louis, Illinois	38
Aluminum Oxide, Production of, 1,315,045, Ralph B. Sherwin, St. Louis, Missouri	38
Automatic Switching Device for Electric-Metal Working Machines, 1,314,515, James H. Gravel, Brooklyn, N. Y.	92

B

Babbitt Metal Product and Process of Making Same, 1,351,404, Louis Sapery, Brooklyn, N. Y.	507
Babbitt Machine, 1,332,975, August E. Donaldson, Toledo, Ohio	375
Bending Machine, Metal, 1,333,751, Charles Decrette, New York, N. Y.	376
Bismuth, Making Oxide of, 1,318,336, Carleton Ellis, Montclair, N. J.	138
Brass Borings, Brass Turnings, and Like Material, Separation and Extraction of Dust and Iron from, 1,332,078, Walter Sowden, Leeds, England	329
Brass Castings, Method of Making Sound, 1,351,051, Leon McCulloch, Wilkesburg, Pa.	507
Brass End Rings, Method of, 1,341,682, Charles W. Starker, Pittsburgh, Pa.	480
Bronzing Machine, 1,354,018, Addison W. Brock, Baltimore, Md.	508
Buffing-Machine, 1,370,551, Louis Schulte, Pittsburgh, Pa.	235

C

Casting Apparatus, 1,318,380, Clarence W. Hazelett, of Lakewood, Ohio	187
Casting Apparatus, 1,318,404, Thomas C. Penn, Cleveland, Ohio	188
Casting Apparatus, 1,318,579, Clarence W. Hazelett, Lakewood, Ohio	189
Casting Apparatus, 1,343,010, Francis H. Vallender, Arlington, Mass.	481
Castings, Apparatus for Coating, 1,348,351, John Dixon, Monaca, and John M. Shaffer, New Brighton, Pa.	525
Castings Articles or Ingots from Molten Metal, Method and Apparatus for Molding or, 1,347,728, Edwin Cooper Willis, Frederick, Md.	525
Casting Hollow Bars or Tubes, Method of and Apparatus for, 1,342,127, Greenville, Mellen, Cranford, N. J.	481
Casting Machine, 1,318,558, Max O. Held, North Milwaukee, Wisc.	188
Castings and Its Products, Method of Producing Composite, 1,316,635, William C. Norcross, Terre Haute, Ind.	138
Casting Machine, 1,341,670, Ransom Judd Powell, Minneapolis, Minn.	480
Casting Machine, Centrifugal, 1,317,120, Franklin H. Wolaver, Chicago, Ill.	139
Casting, Process of, 1,343,017, Joseph L. Ware, Minneapolis, Minn.	481
Casting Metal Bars, Method of, 1,331,919, Carl G. Helby, John Burkam, David E. Lindquist, Ebeneser W. Allen, Fred. L. Riggan, and Richard Law, Sarnia, Canada	328
Casting Metal Bars, Mold for, 1,331,920, Carl G. Helby, John Burkam, David E. Lindquist, Fred. L. Riggan, Ebeneser W. Allen, and Richard Law, Sarnia, Canada	328
Casting Method and Apparatus, Centrifugal, 1,349,416, Harold Griffith Eynon, Philadelphia, Pa.	526
Casting Mold, 1,334,029, Frederick Hachmann, St. Louis, Mo.	376
Casting Mold, 1,334,030, Frederick Hachmann, St. Louis, Mo.	376

Casting Propeller Wheels, Method and Apparatus for, 1,330,600, Thomas Oxenbridge Tatcher, Albany, N. Y.	237
Centrifugal Casting, 1,320,744, Dimitri Senaud de Lavand, New York, N. Y.	188
Centrifugal Valve-Casting Machine, 1,329,170, Frederick Hilty of Waukegan, Ill.	236
Chilled-Mold, 1,336,259 and 1,336,260, William H. Nichols, Pittsburgh, Pa.	426
Cleaning and Polishing Wood or Metal, Composition of Matter for, 1,317,171, Gustaf Magnuson, of Minneapolis, Minn.	138
Coating New Iron and Steel, Composition for, 1,328,282, Albert C. Holzapfel and Paul Walther, New York, N. Y.	285
Cleaning of Ferrous and Non-Ferrous Metals, 1,337,718, Sumner R. Mason, Wilmette, Ill.	479
Composite or Compound Metal, Process of Manufacture of Plates and Large Sheets, 1,332,674, Edouard Martin, of Brussels, Belgium, Assignor to Compagnie Belge due Bimetal, Societe Anonyme of Brussels, Belgium, A Corporation of Belgium	375
Composite Metal Plugs, Method of Forming, 1,334,051, Orton L. Prime, Milwaukee, Wisc.	494
Conveyor for Furnaces, 1,333,371, Clarence D. Barnhart, Brooklyn, N. Y.	375
Copper Alloy, Surface-Colored Articles of, 1,327,400, Thurston C. Merriman, New Haven, Conn.	328
Copper and Its Alloys, from Attack by Atmospheres or Liquids, Process of Protecting, 1,319,508, Guy Dunstan Bengough and Oswald F. Freeman Hudson, of London, England	188
Copper and Its Alloys, Process for Deoxidizing, 1,348,457 and 1,348,458, Albert Strasser, Borschach, Switzerland	526
Copper Bearing Alloys, Process of, 1,353,773, Wm. Judson Marsh, Niagara Falls, N. Y.	508
Copper, Process and Furnace for Refining, 1,348,470, Frank L. Antisell, Perth Amboy, N. J.	526
Copper, Process for Hardening, 1,331,479, Dewitt T. Beckham, Geneva, Texas	329
Corrosion of Tubes and Machinery Parts of Copper or Copper Containing Alloy, Process for the Prevention of Selective, 1,335,200 and 1,335,210, Frans Von Wurstenberger, Zurich, Switzerland	425
Cupola Variable Twyer, 1,320,158, Andrew H. McDougal, Harvey Ill.	189

D

Depositing Aluminum, Process of Electrically, 1,351,144, Glen Lenardo Williams, N. Y.	567
Die-Casting Apparatus, 1,349,122, Conrad Edlund, Brooklyn, N. Y.	526
Die-Casting, Art of, 1,333,754, Charles M. Grey, East Orange, N. J.	376
Die-Casting Machine, 1,332,940, Alfred H. Wiedhoff, Chicago, Ill.	375
Die Casting Machine, 1,338,622, Alfred Hakanson, Brooklyn, N. Y.	479

E

Electric Furnace, 1,317,863, Paul De Miles, New York City	158
Electric Furnace, 1,336,820, Edwin L. Grosby, Highland Park, Mich.	426
Electric Furnace, 1,337,156, Julius A. Pickens, Easley, S. C.	426
Electric Furnace, 1,320,884, Carlo Masera, Turin, Italy	188
Electric Furnace, 1,338,631, Jonas Herlenius, Brooklyn, N. Y.	479
Electric Furnace, 1,335,079, Charles William Spiera, Battersea, London, England	424
Electric Furnace, 1,346,854, Edwin Leonard Smalley, East Orange, N. J.	525
Electrical Furnace, 1,345,876, Raymond Samuel Wile, New York, N. Y.	525
Electric Furnace, 1,335,199, Marcus Ruthenberg, Buffalo, N. Y.	425
Electric Furnace and Method of Operation, 1,333,914, Louis C. H. Groeger, Chicago, Ill.	376
Electric Furnace, Three Phase, 1,327,174, Frederick T. Snyder, Oak Park, Ill.	235
Electric Furnaces, Flexible Connection for, 1,331,625, James H. Critchett, Niagara Falls, N. Y.	328
Electric Metal Working Apparatus, 1,334,571, Elihu Thomson, Swampscott, Mass.	424
Electric Soldering, 1,340,736, Harold K. Parsons and Harry H. Styll, Southbridge, Mass.	480
Electrical Welding, Method of, 1,329,136, Thomas E. Murray, Jr., and Joseph B. M. Murray of Brooklyn, N. Y.	236
Electrical Resistance Furnace, 1,334,806, Jules Simon and Paul Francois Sarron, Lyons, France	376
Electric Welding, Method of, 1,329,135, Thomas E. Murray, Jr., and Joseph B. Murray of Brooklyn, N. Y.	236
Electric Welding Machine, Duplex Rotary, 1,351,717, Joseph Ledwinka, Philadelphia, Pa.	567
Electrode Coating, 1,314,903, William Roy Mott, Lakewood, Ohio	93
Electrode for Soldering and Depositing Metals by the Electric Arc, 1,341,047, Ernest Henry Jones, Islington, London, England	480

Electrode Holder, 1,318,992, Julius R. Halt, Oak Park, Ill.	186
Electrolytic Apparatus, 1,319,715, Ernest Arthur Le Sueur, Ottawa, Canada	189
Electrolytic Apparatus and Method, 1,335,174, 1,335,175; 1,335,176 and 1,335,177, Matthew M. Merritt, South Middleton, Mass.	424
Electrolytic Process, 1,314,588, Kenneth S. Guiterman, New York, N. Y.	93
Electrolytic Process, 1,314,742, William E. Greenawalt, Denver, Colorado	38
Electroplating and Electrocleaning Apparatus, 1,326,801, Andrew Neas, of Glasgow, Scotland	237
Electroplating, Apparatus for, 1,318,064, Michael F. Davoran, Cincinnati, Ohio	138
Electroplating, Apparatus for, 1,319,029, Gerhard T. Potthoff and Kurt T. Potthoff, Brooklyn, N. Y.	186
Electroplating, Apparatus for, 1,336,052, George C. Finger, New York, N. Y.	425
Electroplating Metals and the Like, Means for, 1,319,192, Ferdinand von Madaler, of Good Ground, and John W. von der Lieth, of Brooklyn, N. Y.	186
Electroplating, Method of, 1,318,053, Michael F. Davoran	139
Electroplating Non-Conducting Substances with Copper, Process of, 1,352,231, Unkichi Unno, Tokyo, Japan	567
Electrotyping Apparatus, 1,313,783, George A. Lutz, Cranford, N. J.	92
Enamel, Lacquer, 1,345,334, William F. Doering, Arroyo, N. Y.	525
Enamel for Enameling Articles in Sheet Metal or Cast Metal, 1,332,058, Charles Musiol, Brussels, Belgium	329
Enameling and Annealing Furnace, 1,335,270, Paul Du Pont, Paris, France	425
Enameling Metal, Method and Apparatus for Coating or, 1,348,361, John S. Jobe, Rochester, and John Dixon, Monaca, Pa.	525
Extruding Metal, Machine for, 1,317,238, David L. Summey, Waterbury, Conn.	138
Extruding Metal Tubes, Machinery for, 1,331,169, Herbert D. Swift, and Abraham Lincoln Scott, Yonkers, N. Y.	237

F

Firearm and Alloy for Making Same, 1,346,190, Frank A. Fahrenwald, Cleveland Heights, Ohio	525
Flame-Welding Machine, 1,341,839, Worthly C. Bucknam, Jersey City, N. J.	490
Flame-Welding Machine, Autogenous, 1,341,840, Henry Cave, Hartford, Conn., and James L. Anderson, Bayonne, N. J.	481
Flash Mold, 1,333,621, Willard H. Kempton, Wilkesburg, Pa.	376
Flux, Solder, 1,332,160, Charles Leslie, Bonsteel, Moose Jaw, Saskatchewan, Canada	328
Forming Metal, Machine for, 1,352,813, Cass L. Kennelott and Charles P. Kemble, Chicago Heights, Ill.	568
Forming Press, 1,315,937, John Dudley Arts, Dayton, Ohio	139
Foundry-Mixer, 1,337,333, Herbert S. Simpson, Evanston, Ill.	426
Furnace, 1,315,252, Arthur L. Stevens, Chicago, Ill.	92
Furnace, 1,333,629, George C. Rahn, Erie, Pa.	376
Furnace, Electro-metallurgical, 1,342,636, Francois Louvier, Paimboeuf, France	481
Furnace, Metallurgical, 1,316,267, Walter O. Borchardt, Austinville, Virginia	93
Furnace Metal Melting, 1,323,236, Garnet W. McKee, of Rockford, Ill.	235
Furnace-Boof Construction, 1,330,052, Charles E. Bonsor, Lorain, Ohio	237

G

Galvanized or Coated, Method of Preparing Metal to be, 1,334,092, Henry G. Harmeling, Paducah, Ky.	424
Galvanizing Furnace, 1,343,848, Carl A. Porath, Kokomo, Ind.	481
Galvanizing Metals, Process of, 1,334,183, Robert C. Steffen, Middletown, Ohio	424
Gold, Production of White, 1,330,231, David Belais, New York, N. Y.	328

H

Hanger Unit, 1,316,298, Benjamin Gold, Hobart, Indiana	93
Hardening and Annealing Furnace, 1,341,661, Alfred M. Moore, Malden, Mass.	490
Hardness and Tenacity of Metals and the Ease of their Working with Cutting Tools-Process for Increasing the, 1,326,775, Gabriel Van Oordt, Basel, Switzerland	285
Heat-Treating Furnaces, 1,332,501, Charles J. Kirk, New Castle, Pa.	329
Hot-top for Ingot Molds, 1,334,036, John Jones, Philadelphia, Pa.	376

I

Impurities from Molten Metal, Removing, 1,332,585, William White, Washington, D. C.	329
Ingot-Casting Device, 1,336,234, Frank L. Jamison, Pittsburgh, Pa.	426

Ingot-Mold, 1,346,309, John A. Drain, Philadelphia, Pa.	525
Ingot Mold, 1,351,340, John T. Rowley	567
Ingot-Mold and Method of Molding, 1,336,459, Robert C. Woodward, Williamsport, Pa.	426
*Ingot Molds, Anti-Piping Means for, 1,315,944, John Brunner, Evanston, Ill.	93
Ingot Molds, Method and Apparatus for Cooling, 1,345,749, Ray G. Conates, Pasadena, Cal.	525
Ingot-Pouring Mechanism, 1,340,422, Samuel Bertram Sheldon Duluth, Minn.	479
*Ingots and the Like, Apparatus for Manipulation of Metal, 1,327,315, Evan Walter Davies, Dowlais, Wales	285

L

Ladle and Babbitting Jig, 1,351,247, Wilbur J. Hempy	567
*Lathe, Metal Working, 1,317,708, Harold Ernest Ray Thomas and Frederick George Tams, Stockport, England	138
Lead from Copper Scrap, Method of Removing, 1,349,382, Jesse L. Jones, Edgewood Park, Pa.	526
*Lining for Rotary-Furnaces, Sectional, 1,330,219, Walter S. Rockwell, New York, N. Y.	285

M

Magnesium Alloy, 1,334,193, William R. Veazey, Cleveland, Ohio	424
Magnetic Material, Apparatus for Separating, 1,340,457, Edmund Newton, Minneapolis, Minn.	480
*Melting Metals, Art of, 1,315,206, William H. Bristol, Waterbury, Conn.	38
Metal Alloy, 1,341,774, Christian Bergh Backer, Montreal, Quebec, Canada	480
Metal-Bending Machine, 1,348,215, Samuel H. Gibson, Cleveland, Ohio	525
Metal Car, Hot, 1,341,291, Carl P. Astrom, East Orange, N. J.	480
Metal Casting, 1,336,768, William Hobart Warren, Youngstown, Ohio	426
Metal-Casting Apparatus, 1,336,767, William H. Warren, Youngstown, Ohio	426
Metal-Coating Machines, Attachment for, 1,348,478, John A. Carrigan, New Castle, Pa.	526
Metal Cutting Apparatus, Universal, 1,352,700, Stuart Plumley, Westfield, N. J.	568
Metal-Heating Furnace, 1,336,206, Homer D. Williams, Pittsburgh, Pa., and William Ahlen, Duquesne, Pa.	426
Metal Objects, Apparatus for Treating, 1,334,335, Henry E. Warren and William M. Wheelod, Ashland, Mass.	424
*Metal Plates and Sheets, Apparatus for Handling, 1,330,090, William J. Stoop, Wheeling, W. Va.	285
Metal Plates, Process of Separating, 1,334,584, Charles E. Bailey, Youngstown, Ohio	424
Metal-Plating Machine, 1,342,899, Charles W. Eddy, East Providence, R. I.	481
Metal-Plating, Process and Apparatus for, 1,343,842, Robert J. Piersol, Bentleyville, Pa.	481
Metal, Process of Drawing Refractory, 1,345,441, Junzo Hisamoto, Nagoya City, Japan	523
Metal, Process of Treating Molten, 1,353,126, Otto Thiel, Landstuhl, Germany	568
Metallic Alloy and Method of Making, 1,352,322, Theron D. Stay, Cleveland, O.	568
Metal-Reducing Machine, 1,341,799, Bengt M. W. Hanson, Hartford, Conn.	480
Metal-Working Machine, 1,341,898, Otto H. De Lapotterie, New Brighton, Pa.	490
Metal Reflectors, Mirrors, and Other Metal Articles Having a Reflecting Surface, or Surfaces, Manufacture of, 1,336,224, Thomas Hancock, Bow, England	425
Metals and Reduced Metallic Compound, Making Powdered, 1,329,322, Carleton Ellis, Montclair, N. J.	328
Metals and Alloys, Process of Treating, 1,350,714, Charles Bruce Foley, Brooklyn, N. Y.	567
Metals, Method of Unting Dissimilar, 1,341,337, George A. Mead, Mansfield, Ohio	490
Metals, Process of Melting and Reducing, 1,337,305, Morris H. Bennett, Waterbury, Conn.	426
Metal While Being Milled, Apparatus for Forming a Smooth Surface on, 1,336,239, Thomas B. Kinnsale, Boston, Mass.	426
Metal Working Feed Mechanism, 1,336,108, Alfred Trosch, Rochester, N. Y.	425
*Metal Working Machine, 1,316,221, Conrad M. Conradson, Madison, Wis.	93
*Metal Working Machine, 1,320,296, Walter H. Underwood, New York	139
*Metals or Substances for Alloying, A mixture of, 1,315,208, Edward Godfrey Burr, Montreal, Que., Canada	38
*Metal Ribbons, Means for Forming, 1,315,022, Edward E. Johnson, St. Paul, Minn.	23
Metal Rolls, Manufacture of, 1,318,748, Sir Robert Abbott Hadfield, Westminster, England	187
Metallic Mixture and Process for Preparing the Same, Ignitable, 1,318,709, Claude Theodore James Voutin, London, England	186

Metallurgical Furnace, 14,914 (re-issue)	
Samuel M. Howell, Zanesville, Ohio	525
Metallurgical Furnace, 1,350,863, Daniel E. Griffiths, Pittsburgh, Pa.	507
*Molding Apparatus, 1,320,705, Albert A. Pauly, Cleveland, Ohio	187
*Molding Apparatus, 1,320,707, Albert A. Pauly, Cleveland, Ohio	189
Molding Core, 1,336,212, Louis C. Evon, Detroit, Mich.	425
Molding-Flask, 1,333,971, Julius M. Germanson, Milwaukee, Wis.	376
*Molding Machine, 1,320,910, William John Perry, Toronto, Canada	187
*Molding-Machine, 1,327,419, Allan S. Bixby, Indianapolis, Indiana	235
Molding Machine, 1,337,585, Elmer O. Beardley, Chicago, and Walter F. Piper, Oak Park, Ill.	479
Molding Machine, 1,337,780, John H. Lonskey, Detroit, Mich.	479
*Molding Machine, Split-Pattern, 1,316,616, William P. Krause, Chicago, Ill.	93
Molds, Box for Forming, 1,345,160, Edward Fries, Moores, Pa.	525
*Molds for Castings, Process for Making, 1,327,770, Victor Longhead, of San Francisco, Calif.	187
Molds for Casting, Process of Preparing, 1,345,162, Edward Fries, Moores, Pa.	525
Molybdenum Bronze, 1,319,537, Selko Shigetaki, Tokyo, Japan	189
Molds for Finished Castings, Method of Making, 1,335,509, John Kralund, Brooklyn, N. Y.	425
Molds in which Metals are Cast, Pattern for Making, 1,349,829, William Gibson, Liverpool, England	526

N

Nickel, Method for Producing Metallic Alloys Containing, 1,349,918, Michele N. Salvati, Turin, Italy	526
Nickel Plating, 1,352,328, Edmund N. Todd, Milburn, N. J., and Willis R. King, Newark, N. J.	568
Non-Crucible Furnace, 1,336,137, Joseph E. Hausfeld, Cincinnati, Ohio	425

O

*Oil Burner, 1,331,376, William Raymond Quinn, Spokane, Washington	237
Oil-Filtering Attachment for Furnaces, 1,332,877, Max Blum, Bloomington, Ill.	329

P

Picture or Like Effects Upon Enameled Metal Surfaces, Process for Permanently Producing, 1,335,755, Robert Sandby, Chicago, Ill.	427
Pit-Flask for Castings, 1,345,161, Edward Fries, Moores, Pa.	525
Planetary Metal-Working Machine, 1,316,718, Peter P. G. Hall, Philadelphia, Pa.	139
*Plating Metal Articles, Method of, 1,330,399, Robert J. Shoemaker, Milwaukee, Wis.	285
Platinum and Similar Metals from their Sands and Ores, Process of Extracting, 1,341,686, Russell Thayer, Philadelphia, Pa.	480
Pouring Molten Metal Method of and Apparatus for, 1,350,972, King Irvin and Andrew Lenox, Washington, D. C.	567

R

*Radiation Pyrometer, 1,318,516, Cyril T. Wallis and Ralph C. Schwarz, of Rochester, N. Y.	187
*Rammer for Compacting Sand in Molds, 1,316,973, Nicolas Rappes, St. Pierre, Belgium	139
Reclaiming and Refining Copper and Other Metals, Process for, 1,352,912, Allen R. Partridge, Cleveland, O.	568
Repairing Furnace Roofs, Art of, 1,316,297, Benjamin Gold, Hobart, Indiana	93
Rolling Mill, 1,342,608, Lawrence C. Steele, Pittsburgh, Pa.	481
Rolling Mill, 1,352,468, Ludwig Wolfram, Erie, Pa.	568
Rolling Mill Shearing and Piling Apparatus, 1,337,464, Henry G. O'Brien, Warren, Ohio	479
*Rotary-Casting, 1,329,754, Dimitri Sensaud de Lavaud, New York, N. Y.	235
*Rotary-Casting, 1,329,296, Dimitri Sensaud de Lavaud, New York, N. Y.	235

S

*Sand Moulds, Means for Forming Recesses On, 1,328,582, Abram C. Mott, Jr., and Lewis Kinsley, Philadelphia, Pa.	237
*Scalping or Overhauling Metal, Means for, 1,328,034, James Robert Coe, Waterbury, Conn.	285
*Separating and Feeding Sheets to Cold Rolls, Pickling, Tinning, Galvanizing and Like Machines, Apparatus for, 1,316,430, David Davies, Llanelly, Wales	92
*Sheet Metal Bending Machine, 1,317,264, Charles P. Buck, Topeka, Kans.	139
*Sheet Metal, Method of Forming, 1,316,636, Fred M. Opitz, Racine, Wis.	138

Sheet Metal Cutter, Rotary, 1,353,526, Fred Frengle, Cotati, Cal.	568
Silver Cleaning Compound, 1,315,630, George Koster, Philadelphia, Pa.	38
Smelting Furnace, 1,334,459, Arthur Jones, Los Angeles, Calif.	424
Sodium, Method of Making Metallic, 1,334,179, Allen W. Smith and William R. Veazey, Cleveland, Ohio	424
Solder, 1,333,619, Charles W. Hill, Edgewood, Pa.	375
Solder, 1,333,666, George P. Luckey, Wilkinsburg, Pa.	376
Solder for Aluminum, 1,336,081, James G. Kelly, Sedalia, Mo.	425
Solder for Metals, Particularly Aluminum, 1,332,809, Ragner Iversen, Christiania, Norway	375
Solder, Manufacturing, 1,338,960, Eugene Emil Pierre Jean Prudent Seville Jansen de St. Laurent, Twickenham, England	479
Solder Pot Heater, Induction, 1,352,439, Ora A. Colby Irwin, Pa.	568
Soldering Composition, 1,327,620, Fred E. Lampe, Newark, N. J.	285
*Soldering and Melting Apparatus, 1,329,270, Perfecto M. Elias, and Felix F. Llera, Tucson, Arizona	236
*Soldering, Apparatus for, 1,320,632, George B. Metcalf, Oak Park, Ill.	189
*Soldering Iron, 1,332,937, Jacob Hendrik Van Viersen, The Hague, Netherlands	376
Soldering Iron Holder, 1,333,618, Chris. S. Hall and Freeman D. Smith, Dyersburg, Tenn.	375
*Soldering Iron, Self-Heating, 1,333,590, Claude M. Padgett, Chicago, Ill.	375
*Soldering Irons, Electric Heater for, 1,330,712, William A. Lanahan, of Memphis, Tennessee	236
*Soldering Seams of Can Bodies, Machine for, 1,318,871, John Heine, Jr., of Leichhardt, near Sydney, New South Wales, Australia	186
Soldering Substance for Aluminum with Process for Obtaining It, Industrial Product Comprising a, 1,333,237, Angel Mirete Ayala, of Madrid, Spain	375
Solder, Method of Making, 1,326,971, John Salm, Albany, N. Y.	328
*Surface-Coloring Article of Copper Alloy, Process of, 1,327,401, Thurston C. Merriam, of New Haven, Conn.	236

T

*Tank, Acid, 1,315,241, William T. Russell, Detroit, Mich.	92
*Tempering Metal, Process of, 1,318,367, Thomas J. Fay, of Brooklyn, N. Y.	186
*Tin Mill Furnace, Sheet and, 1,318,948, Thomas V. Allis, Pittsburgh, Pa.	186
Tinning or Soldering Aluminum, Art of, 1,340,264, John Dean, Racine, Wis.	479
*Treating Metals, 1,319,085, Allan F. Jacobson, of New York, N. Y.	187
*Tubes, Means for Forming Metal, 1,327,641, Frank H. Stolp, Geneva, N. Y.	237
Type Slug Casting Mechanism, 1,318,877, Thomas W. Johns, Floral Park, N. Y.	188

U

Uniting Pieces of Metals, Method of, 1,351,684, Norbert Pröster, Berlin, Germany	567

EQUIPMENTS, APPARATUS AND MATERIALS

A

*Acid Core Wire Solder	94
Air for Thermit Welding Preheaters	231
*Ampere Meter, The Hell, Foot	40
*Automatic Cleaning Machinery	330

B

*Barrel Handler, New	484
*Barrel, New Automatic Tumbling	482
*Barrel, New Plating	89
*Barrel, New Sand Blast	140
Bars, Galvanizing, Reinforcing	286
Bearing Metal, New	569

*Billet Piercing Machine—Mannesman Process	190
*Buffing Machine, New Polishing and	377

C

*Cabinet, Rod Cleaning Sand-Blast	191
Carborundum Refractories	428
Cast Iron, Soldering	331
Cement, New Furnace	39
*Cement, Strength of Fire Brick	192
Cleaner, New	527
*Cleaning Machinery, Automatic	330
*Conveyors, Storing Coal with Scoop	193
*Cooler for Oils, Multiwhirl	330
Core Binder, Ajax	482
*Core Oven Heater, New	482
*Core Machine, New	377
*Core Machine, New	509
*Crucible Furnace, New	482

D

*Die Casting Machine, New	484
*Doors and Shutters, Fireproof	286
*Drilling Machine, Sensitive	428
*Drills for Sheet Metal Work, Electric	377
*Drying Bull Ladies	141

E

*Electric Drills for Sheet Metal Work	377
*Electric Furnace, Repelling Arc	483
*Electric Metal Melter, New	141
*Electric Heating Apparatus, New	527
*Electric Muffle Furnace	191
*Electrically Welded Steel Structure	427
Exhibits, E. J. Woodson Company's	528

F

Fighting Fire with Fire (Oxy-acetylene)	287
*Fire Brick Cement, Strength of	192
*Fireproof Doors and Shutters	286
Fire, with Fire, Fighting (Oxy-acetylene)	287
Flux, New (Raylax)	286
Forming Zinc, Hints on	190
Furnace Cement, New	39
*Furnace, Electric Muffle	191
Furnace, New Crucible	482
*Furnace, New Oil	483
*Furnace, New Portable	483
Furnace, New Preheated Air	483
*Furnace, New Rockwell	39
*Furnace, Repelling Arc Electric	483

G

Galvanizing Reinforcing Bars	286
*Grinder, New High Production	483

H

*Hardness Tester, Rockwell	239
*Heater, New Core Oven	482
*Heater, New Oil	485
*Heating Apparatus, New Electric	527
*Heating Small Ladies, New Way of	94
Hols & Company, New Service	238

I

Iron, Soldering Cast	331
----------------------	-----

J

Japan, Water	192
--------------	-----

L

Laboratory, New Plating	331
*Ladies, Drying Bull	141
*Ladies, New Way of Heating Small	94
Lantern, New La France	482
*Lathe, New Spinning	528
Lubrication and its Importance	570

M

*Machine, Sensitive Drilling	428
*Machine, New Core	377
*Machine, New Core	509
*Machine, New Die Casting	484
*Machine, New Polishing and Buffing	377
Magnesium, Some Uses of	142
Magnesium, The Uses of	190
*Mannesman Process, Billet Piercing Machine	190
*Melter, New Electric Metal	141
*Meter, Bell Foot-Ampere	40
*Metal Melter, New Electric	141
Metal, New Bearing	509
*Metal Work, Electric Drills for Sheet	377
*Mill, Economical Tube Rolling	103
Monorail, New Type of	331
*Muffle Furnace, Electric	191
*Multiwhirl Cooler for Oils	330

O

*Oil Furnace, New	483
*Oil Heater, New	485
*Oil Pump, New	485
*Oil Strainer, New	527
*Oils, Multiwhirl Cooler for	330
*Oven Heater, New Core	482
Oxidizer, New	192
Oxidizing Liquid, New	94
(Oxy-Acetylene) Fighting Fire with Fire	287

P

*Piercing Machine—Mannesman Process, Billet	190
*Plant, New Safety Device	570
*Plating Barrel, New	39

Plating Laboratory, New	331
Plating Tank, New Rotary	330
*Plating Tank, Rotary	428
*Polishing and Buffing Machine, New	377
Polishing Wheel, New	485
Polishing Wheels, Sheepskin	286
*Pouring Device, New	94
Pre-Heated Air Furnace, New	483
Preheaters, Air for Thermit Welding	331
Pump, New Oil	485

R

(Raylax) New Flux	286
Refractories, Carborundum	428
Reinforcing Bars, Galvanizing	286
*Repelling Arc Electric Furnace	483
*Rockwell Hardness Tester	239
*Rod Cleaning Sand-Blast Cabinet	191
*Rolling Mill, Economical Tube	103
*Rotary Plating Tank	428
Rotary Plating Tank, New	330
Rust Proofing Process	331

S

*Safety Device Plant, New	570
*Sand Blast Barrel, New	140
*Sand-Blast Cabinet, Rod Cleaning	191
*Scoop Conveyors, Storing Coal with	193
Sheepskin Polishing Wheels	286
*Sheet Metal Work, Electric Drills for	377
*Shutters, Fireproof, Doors and	286
*Solder, Acid-Core Wire	94
Soldering Cast Iron	331
*Spinning Lathe, New	528
*Steel Structure, Electrically Welded	427
*Strainer, New Oil	427
*Structure, Electrically Welded Steel	427

T

*Tailstock, New Style	141
Tank, New Rotary Plating	330
*Tank, Rotary Plating	428
*Tester, Rockwell Hardness	239
Thermit Welding Preheaters, Air for	331
*Tube Rolling Mill, Economical	103
*Tumbling Barrel, New Automatic	482

W

Water Japan	192
*Welded Steel Structure, Electrically	427
Welding Preheaters, Air for Thermit	331
Wheel, New Polishing	485
Wheels, Sheepskin Polishing	286
*Wire Solder, Acid-Core	94
Woodson Company's Exhibits, E. J.	528

Z

Zinc, Hints on Forming	190
